Sending GP lists from MOP

New process

Geneva
15.11.2023

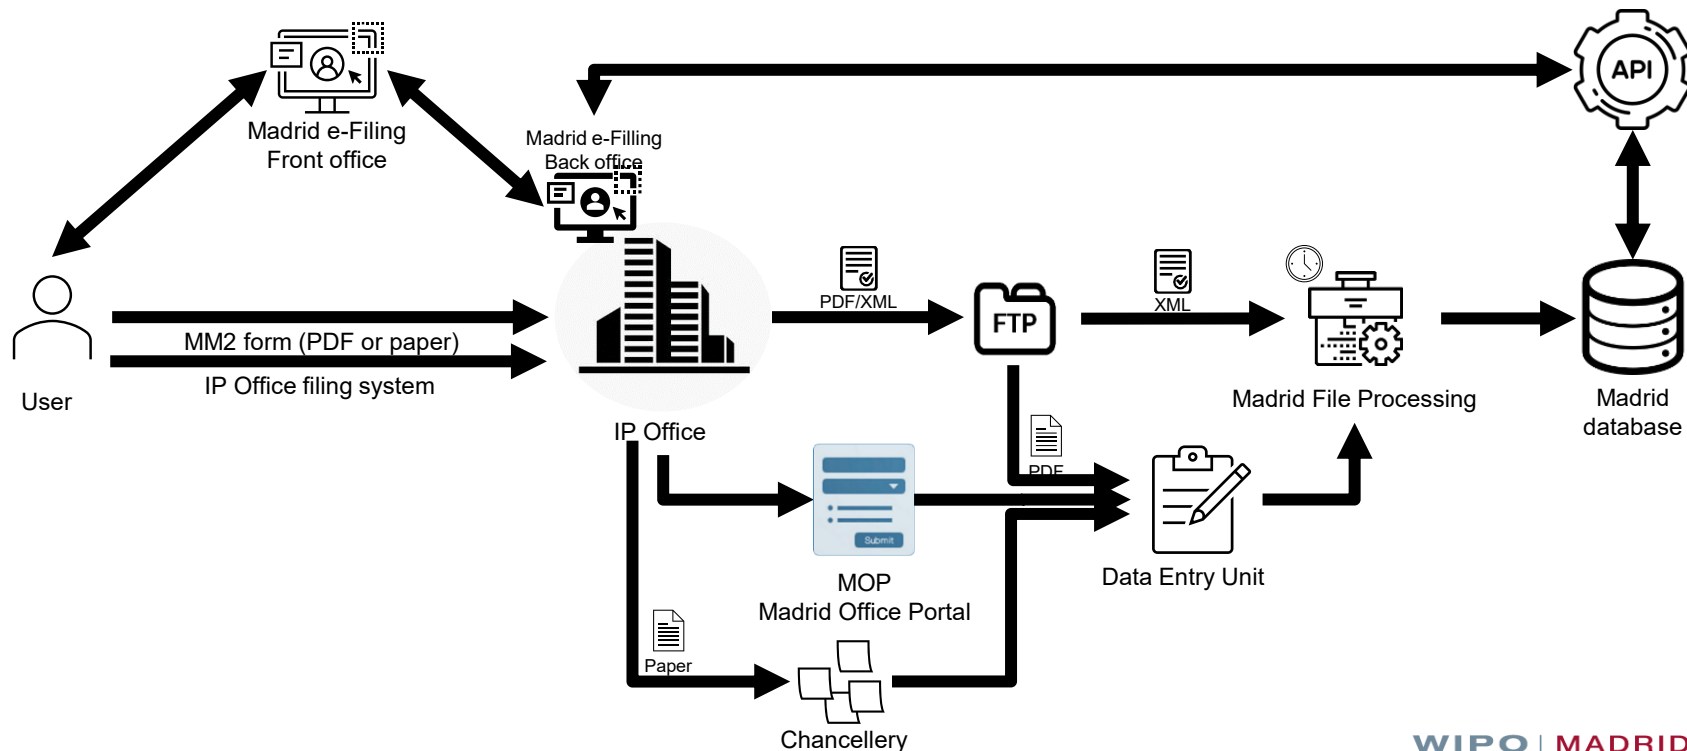

Agenda

- Current process of sending GP lists from MOP
- Overview of GP lists from MOP and statistics
- Objectives of the change
- New interface/process

Current process

- MOP office user uploads a document with a list of IRN-s and submits it to WIPO as “Other mail”.
- In Madrid chancellery the request has to be inserted to Madrid Registry via the back-office application.
 - IRN-s need to be manually extracted from the document.
 - The document needs to be printed out and scanned back in together with a generated bar-code.

Data Exchange with IP Offices – Current

MOP GP lists statistics

Country	Total number of IRNs	Number of GP list files	Number of lists with >100 IRNs	Average IRNs per list
	5302	8	8	663
	1438	3	2	479
	1584	6	5	264
	2341	10	10	234
	1307	7	7	187
	2445	17	11	144
	3569	26	12	137
	2027	17	11	119
	4962	49	31	101
	720	10	0	72
	2509	36	4	70
	612	11	0	56
	2215	58	4	38
	3208	93	3	34
	918	28	0	33
	2041	79	1	26
	556	62	0	9
Grand total	37754	520	109	73

Objectives of the change

- Improving customer experience
- Reducing pendency rate
- Reducing risk of errors

New MOP GP list process

- There is a new tab specifically for sending GP lists.
- The list of IRN-s is validated before submission to WIPO - there can be no duplicates or IRNs in wrong format.
- User can submit maximum of 100 IRNs at once. If there is more than 100 IRN-s to be submitted, then multiple lists need to be submitted.
- Grant of protection decisions can be tracked on MOP Documents tab.
