

## PCT\_FATE

Content and structure (as of December 6, 2022)

There will be two zip files, corresponding to the 2022-WEEK.zip and 2022-WEEK-JP.zip folders available in the [wwwftp.wipo.int/text/WEEK2022](http://wwwftp.wipo.int/text/WEEK2022) folders in the FTP server. The structure inside will be the same, for example:

For 2022-WEEK-JP.zip: in XML

With updated index.xml in the same way.

Likewise, each individual zip file has the same structure as the corresponding original file:

For non-JP xml files:
